# 13th International Donor Registry Conference (IDRC): 18 & 19 June 2023

**The IDRC is a gathering of the scientific community involved in cellular therapy and stem cell donation.**

**Presentation Topics include:**

- The future of mismatched unrelated donor therapies.
- Focusing on mismatched cord blood units.
- Selecting the best suitable stem cell source for transplant: opportunities & challenges.
- Beyond HLA: what non-HLA characteristics are being considered in practice in stem source selection today.
- Optimising Transplant Source Selection: Benefits and Challenges of Predictive Models
- From Science to Practice – time is of essence: so what's the hold-up?
- Volunteer donors providing cells for innovative therapies beyond HSCT.
- Cryopreservation as an innovation driver.

# WMDA Global Meeting: 20 & 21 June 2023

**We will provide feedback on lessons learnt, updates on developments and broaden horizons with new initiatives and strategic discussions.**

**Workshop and Presentation Topics include:**

- Match Connect User Group
- Standards Committee
- Registries Working Group
- Donor Suitability Committee
- Bio-informatics & Innovation Committee
- World Marrow Donor Day
- Cellular Therapy
- 20 years of SPEAR reporting
- Search Coordinators Sessions
- Quality & Regulation Working Group
- Medical Working Group
- Cord Blood Working Group
- WMDA General Membership Meeting

## DKMS' history

Founded over 30 years ago in Germany, DKMS is an international charity dedicated to the fight against blood cancer and other blood disorders. It all started with one man's search for a stem cell donor for his wife, who was diagnosed with leukemia. Right before Mechtild Harf lost her battle, her husband promised her that he would not rest until every patient in need found a matching donor. That man was DKMS Founder Peter Harf, and, together with his daughters Katharina, who is now DKMS' international Chairman, and Viktoria, he set out on a journey to honor his wife's legacy. Forever guided by Peter's promise.
