* Discount is applicable for members from upper middle (20%) and lower middle (33%) and low (50%) income countries). The World Bank assigns the world's economies to four income classifications: low, lower-middle, upper-middle, and high-income countries. These classifications are based on each country's Gross National Income (GNI) per capita for the previous fiscal year, derived from the sum of the gross domestic product (GDP) for the country and net income of residents, converted into United States dollars using conversion factors derived according to the Atlas method. (<https://www.worldbank.org/>)

** Only applicable for full membership
